PROFESSIONAL SUMMARY

Software Engineering student in my 3rd year at ESPRIT (5th university year), specializing in Web Technologies (TWIN). Skilled in building scalable, high-performance, and secure web applications across the full software development lifecycle. Experienced in modern architectures (SSR, RESTful APIs), microservices, telematics data analysis, and integrating AI features into real-world applications.

TECHNICAL SKILLS

- **Frontend:** React.js, React 19 (SSR), Angular, HTML5, CSS3, JavaScript (ES6+), TypeScript, Webpack 5, Recharts, Figma (UI/UX)
- **Backend:** Node.js, Express.js, NestJS, Spring Boot, .NET, PHP, Symfony
- **Databases:** PostgreSQL, MySQL, MongoDB
- **DevOps & Tools:** Docker, CI/CD (Basics), Git, GitHub, RESTful APIs, JWT, OAuth2 (Google/GitHub), Multer, Bcrypt

WORK EXPERIENCE

Web Developer Intern

June 2026 – August 2026

Wevioo

Tunis, Tunisia

- Designed and developed a full-stack web application for vehicle telematics tracking and predictive maintenance (**SmartCar Wevioo**).
- Implemented Server-Side Rendering (SSR) using **React 19**, **Webpack 5**, and **Express.js** to enhance load performance, responsiveness, and SEO.
- Built a secure RESTful API with **Node.js/Express** featuring **JWT** authentication, **Bcrypt** password hashing, **OAuth2** social login (Google, GitHub), and file processing with **Multer**.
- Engineered a relational database schema in **PostgreSQL** to handle vehicle profiles, IoT sensor readings, Diagnostic Trouble Codes (DTCs), and maintenance logs.

Network Engineering Intern

July 2025 – August 2025

Ooredoo Tunisia

Tunis, Tunisia

- Designed and configured a secure multi-site network architecture.
- Configured dynamic routing protocols (**OSPF**, **EIGRP**) and route redistribution.
- Implemented high-availability solutions (**HSRP**, **EtherChannel**) and Network Address Translation (**NAT**) to validate global network connectivity.

IT Security Intern

June 2023 – August 2023

MG Holding – IT Security Department

Tunis, Tunisia

- Analyzed cybersecurity protocols and compliance procedures across enterprise IT environments.
- Audited operational processes regarding sensitive data management, privacy, and protection.

KEY PROJECTS

SmartCar Wevioo – Predictive Maintenance Platform

2026

Tech Stack: React 19 (SSR), Node.js, Express.js, PostgreSQL, Webpack 5, Recharts

- Live Demo: <https://smartcarwevioointernship.onrender.com>[cite: 1]
- Built an end-to-end telematics analytics platform forecasting vehicle failures using real-time sensor metrics (RPM, coolant temperature, DTC error codes).
- Designed interactive dashboards featuring dynamic data charts, CSV/JSON upload management, and real-time alert notifications.

Intelligent Construction Site Management Platform

2024 – 2025

Tech Stack: React.js, Node.js, Express.js, MySQL, Artificial Intelligence

- Developed a full-stack web application centralizing management of construction sites, artisans, and supply inventories.
- Integrated AI-driven modules including smart recommendation systems, an interactive chatbot, and automated classification.
- Added accessibility features such as voice assistance and ergonomic user interfaces tailored for users with disabilities.

HR Management Web & Desktop Application

Tech Stack: *HTML5, CSS3, JavaScript, Symfony (PHP), JavaFX*

- Engineered a personnel management application with core HR functionalities.
- Developed Symfony REST backends and synchronized desktop modules using JavaFX.

2024

Personal Portfolio Website

Tech Stack: *React.js, CSS3, HTML5*

- Created a modern, responsive web application showcasing technical skills, featured projects, and live links to GitHub and LinkedIn.

2024

EDUCATION

Master’s Degree in Software Engineering (In Progress)

ESPRIT – Private Higher School of Engineering and Technology

Specialization: Web Technologies & Internet (TWIN)

2022 – 2027

Tunis, Tunisia

LANGUAGES

- **Arabic:** Native
- **French:** Full Professional / Fluent
- **English:** Professional Working Proficiency
